

Annex 1 - UNDAF (2017-2021) Results Matrix

The Results Matrix is, in spirit and content, subject to the main body of the UNDAF (2017-2021) document's terms and references.

UNDAF Outcomes and focus areas	Indicators of achievement	UN agency contributions and key GOI partners
<p>1. ENVIRONMENT</p>		
<p>1.1: Integrated natural resource management</p> <p>Responsible GOI agencies formulate, implement and monitor integrated natural resource management policies and programmes more effectively.</p> <p>Focus areas:</p> <ul style="list-style-type: none"> ▪ sustainable water resources management, ▪ sustainable land management, biodiversity conservation, and ▪ sustainable management of the marine and coastal environment <p>also reflected in SDGs: 1, 5, 14, 15,</p> <p>17</p>	<ol style="list-style-type: none"> 1. Number and scope of policies, plans, programmes and/or tools for sustainable / integrated water resources management that are developed/updated and adopted /implemented with support of UN agencies 2. Number and scope of policies, plans, programmes and/or models for sustainable land use planning, utilisation and management (that take into account ecological carrying capacity) that are developed/updated and adopted with support of UN agencies 3. Number and scope of Protected Area management models, biodiversity conservation initiatives and/or site specific examples of sustainable development that are developed and piloted with UN agency support 4. Number and scope of regional and / or bilateral initiatives that are developed / supported and in place to address drought mitigation, sand / dust storms and other regional environmental challenges with UN agency support 5. Number and scope of marine and coastal environment sustainable management policies, strategies or programmes that are developed and implemented, with UN support 6. Number and scope of site specific examples of sustainable development that are identified and promoted with UN 	<p>FAO will (in partnership with MOJA, DOE, MOE, FRWO, Land Affairs Organization and Iran Meteorological Organization) assist to:</p> <ul style="list-style-type: none"> ▪ Support the formulation of a national integrated programme aimed at enhancing water productivity and efficiency in water resources management. ▪ Support the development of a framework for collection and analysis of information and data regarding water availability and its use by multiple sectors in watersheds, river basins and irrigation systems – Water accounting and water auditing. ▪ Support the institutional capacity development of government and other stakeholders at country provincial and local levels to deal with governance of water resources. ▪ Help strengthen institutional capacities on reinforcing agricultural water management; develop/disseminate pro-poor tools for improved access and management of water resources for agriculture; and establish and promote FAO collaborating centres to disseminate effective methodologies, tools and products related to water resources management. ▪ Support capacity development to assess agricultural land use, cover and degradation and to analyze, and sustainably respond, to water productivity and yield gaps. ▪ Support mapping of salt affected lands and piloting integrated management practices as well as disseminating related good practices. ▪ Help with combating desertification and restoring degraded land and soil. ▪ Support reinforcement of national capacity and development of methodologies on effective drought mitigation. ▪ Help formulate a National Forestry Programme, halting deforestation, restoring degraded forests, increasing afforestation and reforestation. ▪ Support strengthened access to and utilisation of plant and animal genetic resources. ▪ Promote the conservation of mountain ecosystems and their biodiversity. ▪ Support sustainable management of marine and coastal ecosystems. ▪ Support development of a national fisheries and aquaculture strategic programme.

UNDAF Outcomes and focus areas	Indicators of achievement	UN agency contributions and key GOI partners
	<p>agency support</p>	<p>UNDP will (in partnership with the President's Office MOE, FRWO, DOE, MPO, MoP, MoI and through it Provincial Governors, Rural and City Councils, , and Municipalities where appropriate) assist to:</p> <ul style="list-style-type: none"> ▪ Promote the institutionalisation of integrated natural resource management, land use planning and integrated landscape management into development planning processes. ▪ Support the mainstreaming of integrated water resources management (including water quality management) into development planning processes. ▪ Promote ecosystem management and mainstreaming of biodiversity conservation. ▪ Support the establishment of new Protected Areas and the application of enhanced habitat management methods / tools. ▪ Support the development and implementation of initiatives directly aimed at Sand and Dust Storm (SDS) control. ▪ Support bilateral/multilateral cooperation on sustainable development and addressing regional environmental challenges. ▪ Support the integration of environmental economic analysis and impact assessment into development planning and decision making processes. <p>UNESCO will (in partnership with DoF, MoF, RCUWM, ICQHHS, RCO, Sharif & Tehran Universities, the Iranian National Commission for UNESCO (NatCom) and IRIB) assist to:</p> <ul style="list-style-type: none"> ▪ Promote the generation and sharing of knowledge in relation to integrated natural resource management, ▪ Support capacity-building through international scientific collaboration for the protection and sustainable management of the water bodies, their coasts and their ecologically related lands, terrestrial ecosystems, biodiversity and freshwater security ▪ Coordinate and catalyze international collaborative projects on integrated natural resource management ▪ Identify and support the designation of UNESCO biosphere reserves as site-specific examples of sustainable development ▪ Support raising public awareness for behavior change on water consumption, through capacity building for media, communication professionals and supporting curricula development for educators on sustainable natural resource management <p>UNHABITAT will (in partnership with DoF, MoRUD, MoI, Municipalities, Water Utility Company, BHRC, MoJA, and the RC for Urban Water Management) assist to:</p> <ul style="list-style-type: none"> ▪ Provide support for the development of land management and utilization information systems in Iran, and develop models for land use demand. <p>WHO will (in partnership with MoHME, Ministry of Energy, and Universities of Medical Science) support up-skilling of water safety regulatory management practice on WSP, the</p>

UNDAF Outcomes and focus areas	Indicators of achievement	UN agency contributions and key GOI partners
<p>1.2: Low carbon economy and climate change</p> <p>Responsible GOI agencies formulate, implement and monitor low carbon economy and climate change policies and programmes more effectively.</p> <p>Focus areas:</p> <ul style="list-style-type: none"> ▪ climate change mitigation and adaptation, ▪ promoting energy efficiency, ▪ promoting energy conservation, ▪ addressing air pollution, ▪ promoting renewable energy, ▪ developing and implementing sustainable transportation policies; and ▪ promoting more sustainable consumption and production patterns <p>also reflected in SDGs: 6, 7, 9, 12, 13, 17</p>	<ol style="list-style-type: none"> 1. Number and scope of strategies and institutional arrangements put in place which support implementation of priority actions in the National Appropriate Mitigation Plan, with UN agency support 2. National Adaptation Plan finalized and adopted and Climate Change Adaptation models integrated into national development plans and piloted with UN agency support 3. Number and scope of policies and/or innovative models on reducing the harm of air pollution on all populations, in particular children, adolescent's, and the elderly, that have been formulated, adopted, implemented and/or evaluated with UN agency support 4. Number and scope of policy tools adopted and used to reduce energy consumption with UN agency support 5. Number and scope of new technologies adopted and scaled up that support more efficient energy use / consumption with UN agency support 6. Number and scope of "minimized pollution industry" standards and certification schemes adopted with UN support 7. Number and type of enterprises adopting resource-efficient and cleaner patterns of production, with UN agency support 8. Number and type of "minimized pollution industry" enterprises entering the market 9. Number and scope of science parks and biosphere reserves that have been established and are operational with UN agency support 	<p>auditing system, and the quality assessment process of drinking water.</p> <p>UNIDO will (in partnership with IFCO) assist to:</p> <ul style="list-style-type: none"> ▪ Support efforts to improve energy efficiency in high consumption industries, such as steel, cement, oil and gas refineries, petrochemical and brick production. The programme will focus on developing policies and tools and providing access to technologies and services to reduce energy consumption. ▪ Promote the development of industries producing/renewable energy equipment, energy efficient equipment, IT tools to reduce energy consumption and related management services. ▪ Scale up and mainstream the adoption of resource-efficient and cleaner patterns of production. ▪ Recycling, resource recovery and the environmentally sound treatment of waste. ▪ Knowledge and technology exchange in the area of energy efficiency and waste management. <p>UNDP will (in partnership with DOE, FRWO, MPO, MOJMT, MOP, MOJA, President's Office, MoE, MoI/Provincial Governors and Municipalities) assist to:</p> <ul style="list-style-type: none"> ▪ Promote the development and implementation of GHG mitigation policies, programmes and projects ▪ Promote policies and programmes aimed at reducing the use of ozone depleting substances. ▪ Contribute to climate change adaptation policies, programmes and projects. ▪ Support and contribute to elimination and control of Persistent Organic Pollutants. <p>FAO will (in partnership with MOJA, MOE and DOE) assist to:</p> <ul style="list-style-type: none"> ▪ Support adaptation and mitigation to climate change. ▪ Integrate climate change measures into national policies, strategies and planning. ▪ Strengthen resilience to climate change. <p>UNESCO will (in partnership with DoE, MoCIG, Iranian National Commission for UNESCO (NatCom) and IRIB) assist to:</p> <ul style="list-style-type: none"> ▪ Promote the use of biosphere reserves as learning places for sustainable development and for climate change mitigation and adaptation. ▪ Assist the government of Iran in fostering wide application of renewable energies, especially by means of establishing science park(s) on renewable energies.

Islamic Republic of Iran – UNDAF 2017-2021 – Annex 1: UNDAF Results Matrix

UNDAF Outcomes and focus areas	Indicators of achievement	UN agency contributions and key GOI partners
	<p>10. Number and scope of policies, plans and/or programmes for sustainable transportation management that have been developed/updated and adopted with support of UN agencies</p>	<ul style="list-style-type: none"> ▪ Support strengthening of the power and role of the media in raising awareness among the population and in influencing informed policies by national authorities to effectively report on Climate Change and Adaptation issues in an accessible way to the population <p>UNICEF will (in partnership with MoH, MoE, DoE, and RC) assist to:</p> <ul style="list-style-type: none"> ▪ Scale up and mainstream climate change and environmental education issues into the national education system. <p>UNHABITAT will (in partnership with Mo RUD, Transportation and Traffic Organisation, DoE, MoI and Municipalities) assist to:</p> <ul style="list-style-type: none"> ▪ Support the GOI to make contributions to the global effort to achieve the stabilisation of greenhouse gas concentrations in the atmosphere. ▪ Support the GOI to effectively manage climate change impacts of the urban and rural development activities. ▪ Promote and support activities related to environmentally friendly transportation policies and plans. <p>WHO will (in partnership with MoHME, DoE, and Universities of Medical Science) support tackling the health impacts of air pollution risks.</p>
2. HEALTH		
<p>2.1: Universal Health Coverage</p> <p>The health sector in Iran formulates, implements and monitors their policies and programmes more effectively, in line with promoting universal health coverage goals</p>	<ol style="list-style-type: none"> 1. Number and scope of policies, strategies and/or plans relevant to health systems strengthening (and in line with the National Health Transformation Plan priorities) that are developed/updated, adopted and rolled-out into the National Health System with UN support 2. Number and scope of educational programmes and practices which are strengthened and adopted relevant to reforming medical education in line with the National Health Transformation Plan priorities with UN support 	<p>WHO will (in partnership with MoHME, Universities of Medical Science, Iran health Insurance organization) assist to:</p> <ul style="list-style-type: none"> • Ensure that strategies developed for achieving universal health coverage are based on the principles of primary health care and health equity. • Provide technical support to assess public health functions and capacity and develop new approaches that will require norms and standards for the training and licensing of health workers, the accreditation of health facilities, and the regulation of private providers and insurers. • Support GOI to strengthen their information systems and evidence-based policy-making for guiding HTP, and provide information and evidence on health-related matters including centralized Civil Registration & Vital Statistics.

Islamic Republic of Iran – UNDAF 2017-2021 – Annex 1: UNDAF Results Matrix

UNDAF Outcomes and focus areas	Indicators of achievement	UN agency contributions and key GOI partners
<p>Focus areas:</p> <ul style="list-style-type: none"> ▪ health systems strengthening, ▪ the promotion of integrated people-centered health services, ▪ improvements in the quality of care, ▪ the reform of health financing/insurance systems, ▪ improvements in health information systems, ▪ medical education reform, ▪ advanced medicine and health technology transfer, ▪ health technology assessment ▪ vaccine sufficiency, ▪ hospital management. <p>Also reflected in SDGs: 1, 3, 17</p>	<ol style="list-style-type: none"> 3. Number and scope of strategies, policies and operational guides for hospital management, financing and accreditation, and human resource development that are developed/updated, adopted and / or operationalised with UN support 4. Number and scope of strengthened implementation capacities for Civil Registration & Vital Statistics that are developed and adopted with UN support 5. Number and scope of strategies, policies and plans that are developed/updated and rolled-out to strengthen regulatory mechanisms and the capacity for vaccine and medicine production by Iran FDO (including for the EDI programme) with UN support 6. Number and scope of initiatives on public financing for mothers', children's and adolescents' wellbeing developed / enhanced and adopted and being implemented by MoHME with UN support 7. A mechanism to organize, analyse and produce policy guides and recommendations on child health (the Child Health Observatory) is developed and operationalised with UN support 	<ul style="list-style-type: none"> • Support GOI to develop, adopt or update assessment tools and plans for monitoring and evaluation of interventions regarding UHC and health financing, access to PHC and quality of care in urban settings and hospital management and accreditation. • Support revision of the Medical Education in Health Transformation Plan of MOHME, development of an education programme for family medicine, adoption of other training curricula based on needs, and strengthening of nursing professional regulations and capacity to reduce educational and service gaps. • Support revision of policy for developing Human Resources for Health (HRH) in UHC including professional and technical trainings for midwives and nurses. • Support strengthening of the regulating mechanisms and the capacity of Iran FDO in vaccine and medicine production, and facilitate technology transfer and exchange. <p>UNICEF will (in partnership with MoHME and MoCLSW) assist to:</p> <ul style="list-style-type: none"> ▪ In line with the National Health Reform System, support the MoHME in their efforts in Health System Strengthening through innovative approaches to equity and evidence-based health programming and public financing for children and adolescents, with a specific focus on priority provinces. ▪ Support the establishment and operationalization of a mechanism (potentially called a Child Health Observatory) to absorb all the relevant data coming from the national routine system as well as other knowledge products, to analyze and to produce policy guides, recommendations. <p>UNFPA will (in partnership with MOHME and NOCR) assist to:</p> <ul style="list-style-type: none"> • Support the development and costing of reproductive health services package to include in the Health Transformation Plans • Support improvements to reporting of cause of deaths of Women in Reproductive Age (15-49) in order to contribute to the elimination of causes of preventable maternal mortalities • Support efforts to enhance skills of costing and budgeting for RH. • Support inclusion of RH and maternal health in UHC policies and programmes
<p>2.2: Prevention and control of Non-Communicable Diseases</p> <p>The health sector in Iran formulates, implements and monitors their Non-Communicable</p>	<ol style="list-style-type: none"> 1. Number and scope of multi-sectoral NCD policies, strategies and operational guidelines that are developed or up-dated, adapted and rolled-out with support of UN agencies 2. Number and scope of practices that are strengthened to analyze, monitor and evaluate the implementation and effectiveness of country-led national multi-sectoral NCD 	<p>UNDP will (in partnership with WHO) assist the Ministry of Health to lead a national process that ensures a multi-sector approach to NCDs is planned and implemented.</p> <p>WHO will (in partnership with MoHME, FDA and Universities of Medical Science) assist to:</p> <ul style="list-style-type: none"> • Provide technical support to national counterparts to develop a comprehensive

Islamic Republic of Iran – UNDAF 2017-2021 – Annex 1: UNDAF Results Matrix

UNDAF Outcomes and focus areas	Indicators of achievement	UN agency contributions and key GOI partners
<p>Disease control policies and programmes more effectively</p> <p>Focus areas:</p> <ul style="list-style-type: none"> ▪ Improving mental health services, ▪ tobacco control, ▪ the prevention and treatment of diabetes, ▪ cardiovascular disease, chronic respiratory diseases and cancer, ▪ addressing risk factors related to NCDs, ▪ improving road safety and reducing traffic injuries; and ▪ reducing mortality due to substance abuse <p>also reflected in SDGs: 1, 3</p>	<p>plans with support of UN agencies</p> <p>3. Number and scope of policies and strategies which are strengthened / upgraded and rolled-out regarding tobacco control and prevention programmes, implementation of the WHO Framework Convention on Tobacco Control (WHO FCTC) and ratification of the Protocol to Eliminate Illicit Trade in Tobacco Products with support of UN agencies</p> <p>4. Number and scope of policies and strategies which are developed / updated, adopted and rolled-out related to addressing underlying causes of road traffic injuries, other unintentional injuries and mental health problems with UN support</p>	<p>monitoring framework according to the global plan and recommendations on NCD for a set of globally identified and nationally adapted targets; articulate policy options for strengthening and facilitating multi-sectoral action, including through effective partnership; with MOH exercising leadership and a coordinating role in promoting the national strategy and action plan</p> <ul style="list-style-type: none"> • Support national counterparts to develop operational guidelines and effective intervention measures, national surveillance and information systems and standardised data collection tools, to monitor exposure to NCD risk factors, NCD-specific mortality and morbidity, and the health system response to these diseases and evaluate the implementation and financial situation of NCD. • Support national counterparts to establish/update multi-sectoral national policy/strategic action plan for mental health and integrate priority mental health issues in the basic health delivery package in PHC. • Support national counterparts in strengthening capacities to develop policies, programmes, and laws that are effective in addressing the underlying causes of violence, road traffic injuries and other unintentional injuries. <p>UNICEF will (in partnership with MoHME, MoE, IRC, SWO, and MoD) assist to:</p> <ul style="list-style-type: none"> ▪ Support development and implementation of successful models on Prevention of Non-Communicable Diseases through promotion of healthy life style and social health among children and adolescents in line with the MoHME's plans on prevention of NCDs. ▪ Support knowledge management and development of innovative approaches on early prevention of NCDs during childhood and adolescents with specific focus on promotion of physical activities and obesity prevention through communication for development approaches. ▪ Enhance the capacity of relevant partners to operationalize successful models on promotion of social health with specific focus on prevention of child maltreatment; ▪ Enhance the capacity of relevant partners to operationalize successful models on prevention of home and road injuries.
<p>2.3: Prevention and control of HIV/AIDS and other Communicable Diseases</p> <p>The health sector in Iran formulates, implements and monitors policies and programmes on HIV/AIDS and other</p>	<p>1. Percentage of HIV population in Iran that is aware of its HIV sero-status: Baseline: 30 per cent (NSP4) Target: Year 5: 90 per cent (NSP4)</p> <p>2. Percentage of HIV population that is receiving antiretroviral therapy according to national guidelines:</p>	<p>UNAIDS will (in partnership with the National AIDS Committee and its technical sub-committees, the Secretariat of the National AIDS Programme as well as its implementing partners) assist in providing support to an effective, multi-sectoral National Strategic Plan through formulation, implementation, monitoring, reporting and evaluation of the UN Joint Programme of Support on HIV, which focuses on the following product streams:</p> <ul style="list-style-type: none"> • Fostering Innovation, Knowledge Management and Strategic Information • Capacity Development and Implementation Science • Advocacy and Communication

UNDAF Outcomes and focus areas	Indicators of achievement	UN agency contributions and key GOI partners
<p>communicable diseases more effectively.</p> <p>Focus areas:</p> <ul style="list-style-type: none"> ▪ HIV/AIDS prevention, treatment and care, ▪ TB elimination, ▪ malaria elimination, ▪ controlling other emerging and re-emerging diseases, ▪ tackling vaccine preventable diseases and implementing the polio end-game strategy, ▪ combatting anti-microbial resistance, and ▪ CD preparedness response 	<p>Baseline: 50 per cent (NSP4)</p> <p>Target: Year 5: 90 per cent (NSP4)</p> <p>3. Proportion of HIV/AIDS strategic information products developed with UN support that is verifiably used in subsequent analysis, monitoring and reporting by the National AIDS Control Programme. Baseline: TBD Target: ≈100%</p> <p>4. Number and scope of national HIV/AIDS policies, strategies and/or intervention plans that have been developed, updated and/or rolled, including with respect to most at risk groups, with support of UN agencies</p> <p>5. National Elimination strategies and policies for Malaria, TB, Measles and Rubella, and Schistosomiasis are implemented and/or up-dated with support of UN agencies</p> <p>6. Number of autochthonous malaria cases Baseline (2014): 367 Target (2021): <40</p> <p>7. Number and scope of practices that have been strengthened and adopted to sustain vaccine preventable disease programmes, support introduction of new vaccines, roll-out the Polio End Game Strategy and ensure availability of sufficient IPV with support of UN agencies</p> <p>8. Number and scope of national policies, strategies and plans that are developed, updated and/or rolled-out related to the national NCD surveillance system, IHR implementation, cross-border collaboration and a coordinated response to AMR with UN agency support</p>	<p>UNAIDS, WHO, UNDP and other relevant UN agencies will assist Iran to carry out a mid-term evaluation of the 4th HIV/AIDS National Strategic Plan 2016-2020(NSP4) in 2017.</p> <p>UNDP will(in partnership with MoHME, CDC, MoE, Prisons Organization, and Welfare Organization):</p> <ul style="list-style-type: none"> • Continue to act as the Principal Recipient of GF grants for Iran supporting the country to ensure smooth implementation of the 4th National Strategic Plan on HIV/AIDS. • Support the Country Coordinating Mechanism of Global Fund grants. • Provide admin and policy support to the function of the Global Fund Board Member representing the EMR Constituency. <p>WHO and UNDP will assist Iran to implement the National Malaria Elimination Programme.</p> <p>UNFPA will provide support to the implementation of the 4th National Strategic Plan of HIV by continuing its support to HIV and STI prevention services for vulnerable populations, especially women, through advocacy, exchange of experiences and other support, as needed.</p> <p>WHO will(in partnership with MoHME and Universities of Medical Science) assist to:</p> <ul style="list-style-type: none"> • Provide support to strengthen country capacity to deliver key HIV interventions through active engagement in policy dialogue, development of normative guidance and tools, dissemination of strategic information, external consultancies, trainings, experience sharing and knowledge transfer, and guideline development to strengthen capacity to implement strategies, update surveillance system, scale up counselling and testing, treatment and care and stigma reduction. • Support national capacity building for adaptation and implementation of the global strategy and targets for Tuberculosis prevention, care and control after 2015: help in updating strategies and policies and guidelines for TB elimination; ensure use of an updated surveillance system; and support access to first and second line drugs and quality diagnostic facilities. • Provide support to strengthen country capacity to update/maintain implementation of Malaria elimination strategy, scale up diagnostic capacity and assess quality (QA/QC) of laboratory network and measure drug efficacy and resistance, and help initiate integrated vector control management. • Provide support to strengthen country capacity for Implementation and monitoring of
<p>Also reflected in SDGs:1, 3</p>		

UNDAF Outcomes and focus areas	Indicators of achievement	UN agency contributions and key GOI partners
		<p>the global vaccine action plan, with emphasis on strengthening service delivery and immunization monitoring in order to achieve the goals for the Decade of Vaccines, maintain Polio eradication and elimination of Measles and Rubella and progress the Polio End Game Strategy.</p> <ul style="list-style-type: none"> • Support implementation and monitoring of the International Health Regulations (2005) and a coordinated response to Anti-Microbial Resistance (AMR) at country level; including scaling up of capacities for adequate information management, risk assessment and risk communication for public health events and detection and response to emergencies and outbreaks. <p>UNICEF will (in partnership with MoHME, IRCS and SWo) assist to:</p> <ul style="list-style-type: none"> • Support MOHME to scale up the national program on Prevention of Mother to Child Transmission (PMTCT). • Support MOHME to scale up the National Initiative ‘ALL In’ for Prevention of HIV/AIDS among most at risk adolescents and youth. • Support the capacity of MOHME to enhance the quality and effectiveness of the national immunization program through supporting the local production of vaccines, introduction of new vaccines and enhancing the vaccine supply management. <p>UNESCO will (in partnership with MoE, MoCLW, Iranian National Commission for UNESCO (NatCom) and MoH) assist to:</p> <ul style="list-style-type: none"> ▪ Support awareness raising and development of health curricula for MoF targeting adolescents and youth. ▪ Provide technical support to necessary assessments/data collections in schools and communities to ensure evidence-based interventions targeting adolescents in schools, literacy classes and vocational training centers.

UNDAF Outcomes and focus areas	Indicators of achievement	UN agency contributions and key GOI partners
<p>2.4: Promoting health throughout the course of life</p> <p>The health sector in Iran formulates, implements and monitors its health promotion and well-being policies and programmes more effectively</p> <p>Focus areas:</p> <ul style="list-style-type: none"> ▪ institutionalisation of health promotion and development, assessing and addressing the social determinants of health, ▪ improving reproductive health, maternal and neonatal health, ▪ child and adolescent health and nutrition, ▪ meeting the health needs of vulnerable groups such as the elderly and the disabled, and ▪ food safety <p>Also reflected in SDGs: 1, 3, 5</p>	<ol style="list-style-type: none"> 1. Number and scope of the policies, strategies and/or practices that have been strengthened to improve quality of interventions to end preventable maternal and new-born death, reduce birth defects, and improve neonatal and early childhood health and development with support of UN agencies 2. Number and scope of policies, programmes and/or practices that are developed / enhanced and adopted to better meet the health needs of the elderly and the disabled with support of UN agencies 3. Number and scope of policies and strategies, plans of action and guidelines that are developed/updated and adopted to promote healthy behaviours, sexual and reproductive health with support of UN agencies 4. Number and scope of national policies and programmes for food safety and assessing food safety risks that are developed / enhanced and adopted with the support of UN agencies 5. Number and scope of policies and programmes developed / updated and implemented to promote food and nutritional security with UN agency support 	<p>WHO will(in partnership with MoHME, Ministry of Sport and Youth, Universities of Medical Science) assist to:</p> <ul style="list-style-type: none"> • Provide technical support to counterparts in developing/updating or adapting policies, strategies and guidelines for safe pregnancy and delivery and support for development of training guidelines and standard operation procedures for service providers and running trainings and capacity buildings required. • To monitor and evaluate improvement of maternal and neonatal health through implemented HTP and support development of new strategies, policies and interventions required for reducing maternal, neonatal and child mortality. • Develop/update and implement policies and interventions to promote healthy behaviour, sexual and reproductive health. • Facilitate the collection, analysis and reporting of data on health indicators of ageing populations. • Facilitate national dialogue across different disciplines, in particular on animal health, laboratory, food, chemical and radio-nuclear safety and points of entry, and providing technical assistance for capacity building to develop and implement policies and practices to control risk and reduce the burden of foodborne diseases through strengthening monitoring system, risk and communication management of food safety (including assessing risk of pesticide residues in food and vegetables). <p>UNFPA will(in partnership with MoHME) assist to:</p> <ul style="list-style-type: none"> ▪ Engage in policy dialogue, support research and evidence generation that will strengthen RH/maternal health components in Health Transformation Plans, in UHCC and other national health policies and activities. ▪ Advocate for and introduce health economics and financing. ▪ Development of a comprehensive programme to reduce maternal mortality and morbidity through strengthening the midwifery workforce to encourage physiologic delivery and reduce C-section rate and improve maternal death surveillance and response. ▪ Support data gathering, research and analysis on maternal morbidity. <p>UNICEF will (in partnership with MoHME, SWO, MOI, and IRCS) assist to:</p> <ul style="list-style-type: none"> ▪ Enhance the quality, coverage, continuity and effectiveness of the maternal, neonatal and early childhood health and development services, focusing on healthy beginning for the most disadvantaged children, through ensuring healthy motherhood, pregnancy, infancy and childhood. ▪ Promote nutritional security among children and adolescents.

Islamic Republic of Iran – UNDAF 2017-2021 – Annex 1: UNDAF Results Matrix

UNDAF Outcomes and focus areas	Indicators of achievement	UN agency contributions and key GOI partners
		<ul style="list-style-type: none"> ▪ Enhance the management capacity of mid and senior level nutrition managers. ▪ Support health and nutrition preparedness in emergencies. ▪ Promote the effective prevention and treatment of the impact of environmental factors on child health and nutrition. <p>UNESCO will (in partnership with MoE, MoH, MoYS, Iranian National Commission for UNESCO (NatCom), and NIN) assist to:</p> <ul style="list-style-type: none"> ▪ Promote development of training materials for specific groups of literacy learners, vocational training students and other low-literate population groups. ▪ Support the formal education bodies to develop life skills training materials which cover healthy life style and nutrition <p>FAO will (in partnership with MOH and MOJA) assist to:</p> <ul style="list-style-type: none"> ▪ Support improved policy, institutions and governance for food security and nutrition and risk reduction/management. ▪ Support the development of post-farm efficient and sustainable food systems. ▪ Support improvements in the access of poor and vulnerable households to safe, nutritious and diversified food.
3. RESILIENT ECONOMY		
<p>3.1: Inclusive growth, poverty eradication and social welfare</p> <p>Responsible GOI agencies formulate, implement and monitor</p>	<ol style="list-style-type: none"> 1. A national Poverty/Child Poverty Monitoring System is consolidated and operational, with UN agency support 2. Number and scope of knowledge products produced on the impact evaluation of social policies and programmes and evidence of their use to inform future planning with UN 	<p>UNICEF will (in partnership with MCLSW, MPO, MoCLSW, SWO, IRCS, MoHME, BAFIA, Judiciary, MoI and MoE) assist to:</p> <ul style="list-style-type: none"> ▪ Regular monitoring of multidimensional child poverty, age-specific vulnerabilities and welfare outcomes across the population. ▪ Support national capacities for effective evaluation of social programmes and policies; ▪ Promote social protection and sectoral policies that address multiple deprivations across

Islamic Republic of Iran – UNDAF 2017-2021 – Annex 1: UNDAF Results Matrix

UNDAF Outcomes and focus areas	Indicators of achievement	UN agency contributions and key GOI partners
<p>their social welfare and poverty eradication policies and programmes more effectively.</p> <p>Focus areas:</p> <ul style="list-style-type: none"> ▪ promoting inclusive growth, addressing poverty eradication, and ▪ supporting social welfare, including on quality education, child poverty, child welfare, and lifelong learning <p>Also reflected in SDGs: 1, 3, 4, 5, 8, 10, 17</p>	<p>agency support</p> <ol style="list-style-type: none"> 3. Number and scope of child poverty reduction / child-sensitive social protection policies /programmes developed and adopted with support of UN agencies 4. Number and scope of initiatives that are adopted / used by GOI on Public Financing for Children with support of UN agencies 5. Number and scope of policies /programmes developed and implemented for the prevention, early detection and response to child maltreatment with UN agency support 6. Number and scope of policies/programmes developed and implemented for the children in contact with the law with Un agency support 7. Number and scope of innovative and contextualized approaches developed and implemented which enhance the quality of, and access to, pre-primary and primary school as well as the adoption of child-friendly schools at the primary level with UN support 8. Number and scope of initiatives developed and adopted which support national teaching methodologies that reflect child-friendly school standards with UN support 9. Number and scope of successful models developed and adopted which enhance national capacity to improve secondary education and life skills education with UN support 10. Number and scope of implemented and evaluated models to enhance national capacities on school-based programmes for promotion of healthy lifestyles 11. Number and scope of localized policies and programmes to 	<p>the life-cycle.</p> <ul style="list-style-type: none"> ▪ Promote coordination across sectors and levels to ensure quality and equitable coverage of social services for children and adolescents. ▪ Support government's initiatives to ensure efficiency and effectiveness of social development programmes and policies. ▪ Support government's efforts to enhance the efficiency, equity and adequacy of public investment in children and adolescents. ▪ Support prevention, early detection and response to child maltreatment. ▪ Support the GOI to provide quality services to respond to the needs of the most disadvantaged children. ▪ Promote effective options for quality care of children without effective caregivers; ▪ Enhance the capacity of relevant national stakeholders for effective coordination and response to Child protection in Emergencies. ▪ Develop programmes which promote application of alternative measures for children in contact with the law, promote sustainable rehabilitation and reintegration of children in contact with the law into the society and promote inter-sectoral cooperation for effective response to the needs of children in contact with the law. ▪ Support GOI in developing and implementing policies and strategies to ensure equitable quality education for all children, with a particular focus on vulnerable and disadvantaged children. ▪ Support active participation of all children in the process of learning and teaching in accordance with the GOI's policies on promoting inclusion and participation of all children. Support GOI in implementing policies to improve learning environment in schools to ensure that children have access to safe and protective school environment. ▪ Assist in developing plans and strategies for a holistic life-skills and localized vocational training. ▪ Enhance the capacity of relevant national stakeholders for effective coordination and response to education in emergencies. <p>UNESCO will (in partnership with MoE, TVTO, LMO, MoH and its assigned Medical Universities, Iranian National Commission for UNESCO (NatCom), MoSRT and IRCoSPTBC) assist to:</p> <ul style="list-style-type: none"> ▪ Support South- South and regional cooperation on promoting quality education for all ▪ Support the Government in the development of policies and strategies to provide quality education for all. ▪ Support capacity development for data collection and analysis, curriculum development and organizing fora for best practices and knowledge sharing. <p>UNHABITAT will (in partnership with MoRUD, MoI and the Imam Khomeini Relief Foundation) assist to:</p> <ul style="list-style-type: none"> ▪ Support the development and use of urban poverty definitions and standards for Iran.
